Subject: Evidence emerging that jesus christ was actually the son of the Devil

My dear friend Chaplain Gordon Klingenschmitt,

Evidence emerging that jesus christ was actually the son of the Devil

According to history, archeology, scientific research and study of the Bible, strong evidence is slowly emerging that jesus christ was the son of the Devil and had no relationship to God or godly things whatsoever. his mother was the whore of Bethlehem. christ was sexually abused as a child and grew up to sexually abuse children. he was a hermaphrodite with one ovary and one testes, feminine appearance, hairless torso and legs, beautiful face and had many gay lovers. his number was 666, the number of the Devil. he had every vice imaginable and then some. he was ultimately found guilty of his crimes and nailed to the cross. The Devil was so upset that he came in person to try and bring him back to life and even succeeded for a short time.

he tried to mislead the learned by claiming that the world was flat, that the sun and the universe rotated around the earth, that human beings were not descended from primitive humanoids. he never mentioned extinct species like the dinosaurs but only animals living at that time, which clearly shows his shallow knowledge. luckily these assumptions were rejected in time by his own christian followers. he had no concept of the laws of physics, mathematics, speed of light, big bang birth of the Universe, the correct age of the Universe as well as that of our planet. (Whereas all these facts had been correctly mentioned in the Great Hindu books written 3000 years before christ).

We do not have all of the evidence in yet, but this fact of jesus being born to the Devil has started taking firm root in the non-christian world. Our book should be released within 5 years once all the research is complete. And then we plan to release it first in the non-christian world and then globally. The idea is to expose the truth about this very evil and very seductive mortal.

The liberal christians that we have informally spoken to have been very receptive to this fact. Our plan is to peacefully and ultimately get rid of this evil cult called christianity/ christianism/ churchism from the face of this earth by converting our christian brothers and sisters to proper religions like Buddhism, Hinduism, Judaism, Baha'i, Jainism, Sikhism, Zoroastrianism etc. They are all excellent religions and each individual ex-christian may choose which one to follow.

Luckily, christianity is on the wane in Europe (which will become an Islamic state within 200 years) and in the USA which has seen a decline in Christianity from almost 100% 40 years ago to 75% today. For this we thank our liberal christian brothers and sisters for their cooperation.

We request our christian brothers and sisters not to get upset at this revelation, but look at the truth around you. America has many religions but which religion produces all the child molesters, gays, mass murderers - none other than christianity. Every 2nd pastor/priest in christianity is gay or a child molestor. Which religion puts its elderly in nursing homes, which religion promotes incestuous relations, the list goes on..... Do you ever hear about the millions of non-christians in the USA

committing these vices. No and no. Countries with christian minorities hardly ever have instances of gay or child abuse.

I had a long talk with the good Chaplain Gordon Klingenschmitt, and he agrees with me. Though he has not yet converted to Hinduism, he is almost there. He has found so much happiness at cleansing his soul of jesus the Devil. He wants to share his experience with you. He will forward my email to his followers who shall soon know the truth about jesus the Devil and reject him. It will not be easy, because the Devil is cunning and is inside your very soul. Only by accepting the Lord Krishna as your Savior and True God will you christians find salvation.

May Lord Krishna bless you all and save your souls.
